

Digital Marketing HW Assignment MKT 6321

Prof. Alexander Edsel

Grading criteria:

1. I will look to make sure you followed the criteria requested, showed screenshots, AND made a significant level of effort. I will especially look at the campaign and ad group structure, keywords (number & match type), and the quality of the written ads and use of a call to action.
2. If you did not complete a task or it was very poorly done you will not get any points for that deliverable
3. If the task was not done correctly, the range of point deduction may vary from 10% to 80% off the total points for that deliverable.

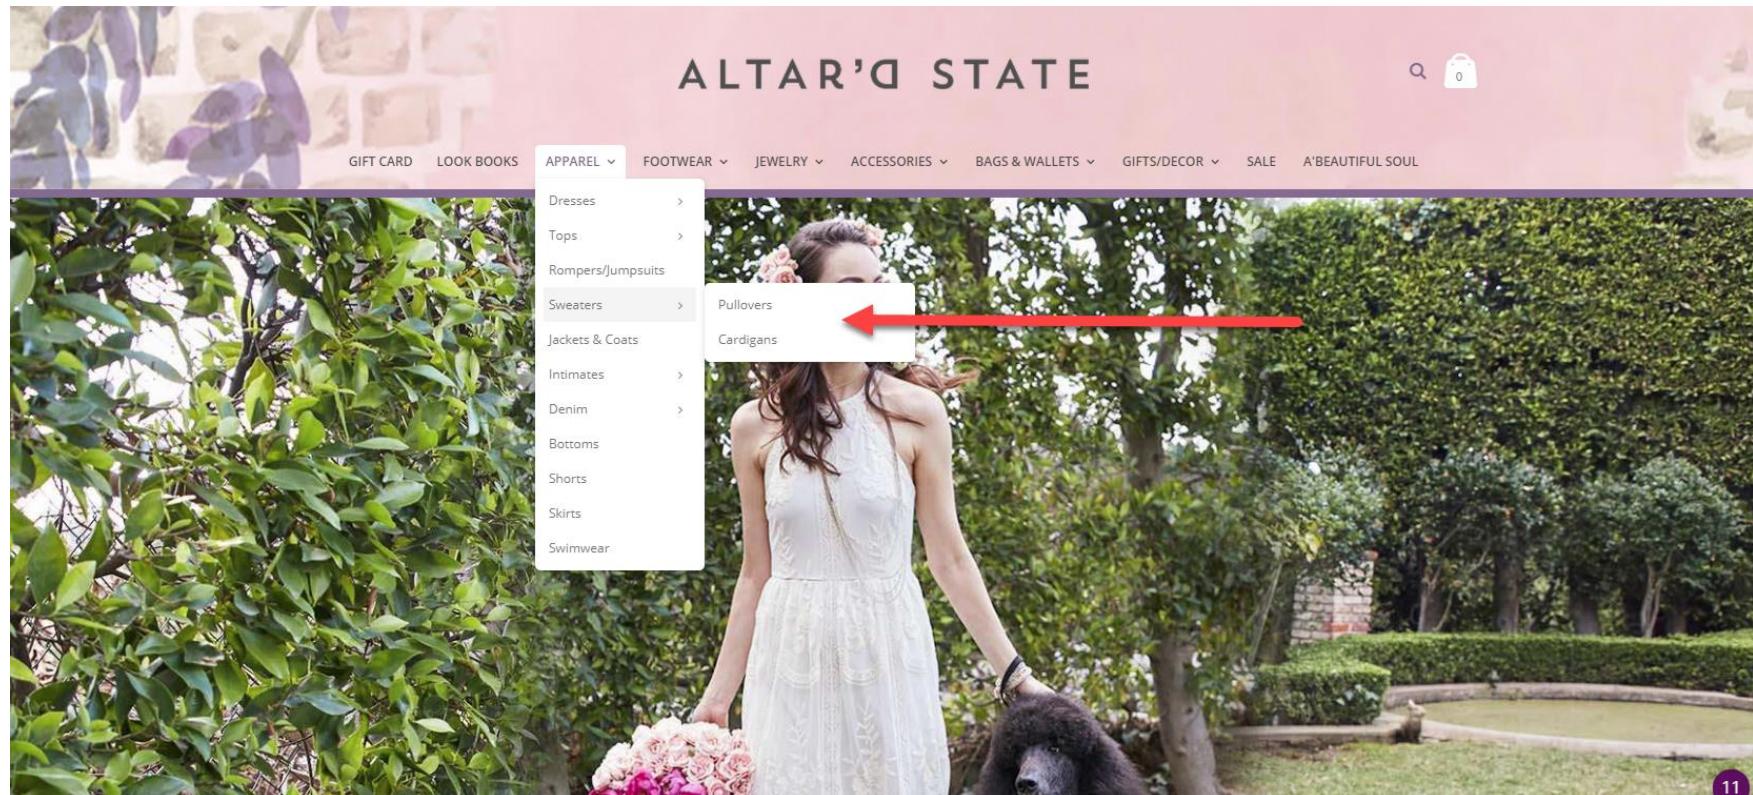

Requirements for this Homework:

1. This is an individual assignment; no two assignments should be on the same different websites! Please do not check with me, odds are with millions of websites you won't pick the same and if that should happen, none of the Ad Groups, keywords or ads should be the same.
2. Pick a website that meets the following criteria-25 point deduction and you will have to resubmit the assignment if you do NOT follow these requirements:
 - The company MUST sell products online, be in English, and located in the United States so the Moz local tool can be used. To avoid extra work, find an e-commerce site that also has a physical store/address.**
 - The website must allow pages to be scanned by tools used in the SEO section; here is a quick test: enter the website here: <https://www.bing.com/webmaster/tools/mobile-friendliness> if it says blocked or it cannot scan, then pick another website.**
 - You do not need to ask any company for permission as you are not actually running any paid ads.
 - Do NOT pick large companies like Amazon, Best Buy, etc. If it has more than 10 locations it is best NOT to use for this assignment. The reason is that it may (not always) be harder to find problems with either UX or SEO with major websites managed by professional digital marketers/agencies. If you still want to pick a large company, go ahead, please use your best judgment, and do NOT ask me if your website has 20 products and 2 categories. You **should be able to figure this out. I don't care if they have retail stores, just as long as a website**
 - The website must have at least 2 different categories and over 20 products; pages must be specific to a category; for example, a well-designed website doesn't lump together, say, couches and beds or sweaters and shoes on the same page.
 - You CANNOT pick the company I used in the video tutorial
 - Do not pick from any Google Ads restricted category (e.g., drugs, gambling, sex, guns, etc.) see listing <https://support.google.com/adwords/policy/answer/6008942?hl=en>
 - Everything must be typed, I will NOT accept any papers with handwritten comments
 - Save as a PDF before uploading to the elearning assignment link so the file size is smaller; it must all be in one document;** do NOT upload 10-15 different files.
 - Make sure when trying to print that you disable your pop-up blocker ads image ads will show up as a pop up**
 - You will need to do screenshots; if you do not know how, do a Google search and specify your device, Mac, windows, etc. Also, learn to crop if you do not know how.** Snagit is an optional but useful tool for taking screenshots and adding comments, [see free trial](#)

- I recommend you use a word document and do it in landscape layout so screenshots are easy to read if I cannot read a screenshot easily, (will not use a magnifying glass) points will be deducted
- You must perform ALL the tasks and provide printouts of all as shown at the end of the video tutorial for this homework assignment–printouts and screenshots requested **must be legible- -if too small or blurry to read, it will be considered incorrect.**
- Use the word template provided to copy and paste the screenshot and enter type in comments.

1. DELIVERABLE ONE: (0 points BUT 10 POINT DEDUCTION IF NOT DONE)

- a) Enter the URL of your target company that meets the criteria from page one: for example <http://www.altardstate.com>
- b) Provide two screenshots of the website containing the homepage and a page for the product or service categories you are using in your Google Ads campaign/ad groups- make sure the screenshot shows the category page and subcategories.

UX-Usability -10 points

2. DELIVERABLE TWO: Identify at least four UX problems based on best practices discussed in the lectures, show with a screenshot what the problem is, see the examples below. Do NOT cite the lack of a "Site Map" (yes it can be UX but more of an SEO problem). There can be more than one problem per screenshot-however, it must be very clear what the problem is. Highlight it and add a text box comment as shown below. You must find at least 4 problems, if you cannot, use another website.

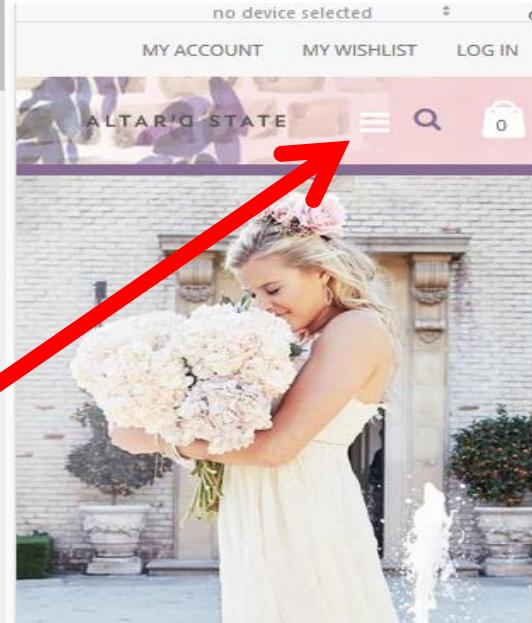

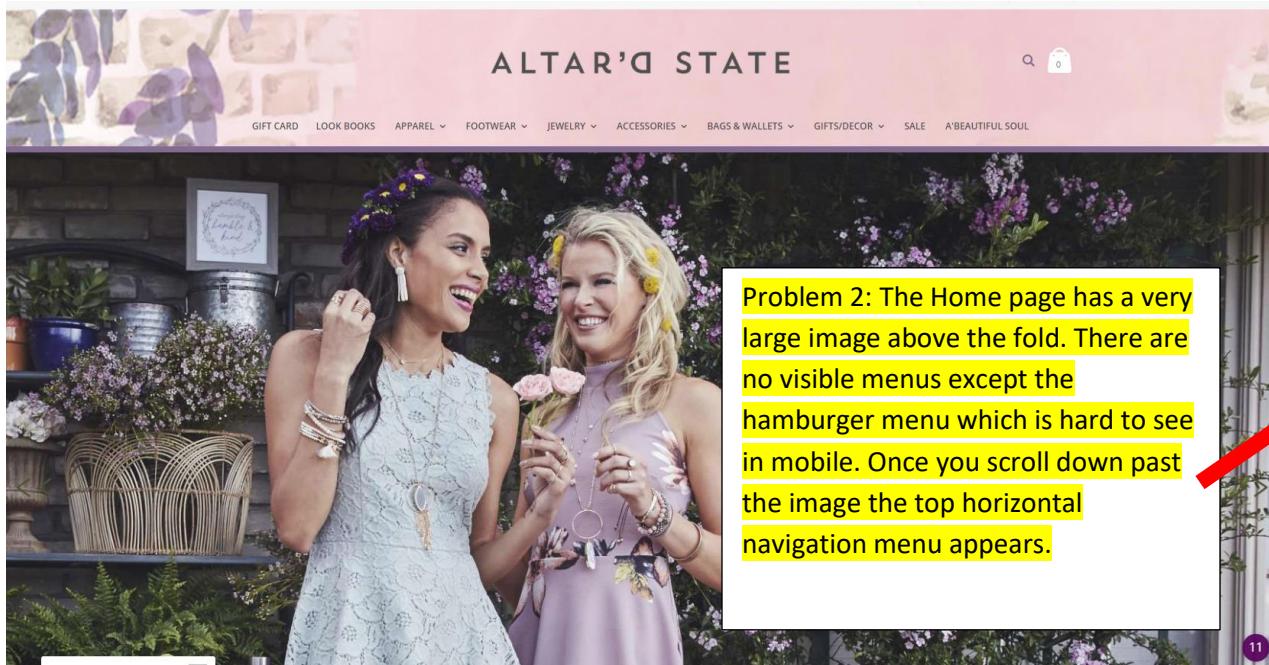

The screenshot shows the Altar'd State website's search results for the keyword "wedges". A red arrow points from a yellow-highlighted text box on the left to the search bar at the top of the results page. The text box contains the following comment:

Problem #1
When you enter in search box the keyword "Wedges", a type of footwear, the results page pulls up images of dresses, sweaters, etc. but NOT of wedges-very poor internal search.

The search results page displays four items:

- Altar'd State Alvarado Dress: Price From: \$79.95
- Altar'd State Burien Dress: Price From: \$29.88
- Altar'd State Chaska Top: Price From: \$44.99
- Altar'd State Clairton Dress: Price From: \$59.95

Each item has an "Add to Cart" button. The page also includes filters for price (from \$14.95 to \$79.95) and size (N/A, XS, S), and a message input field.

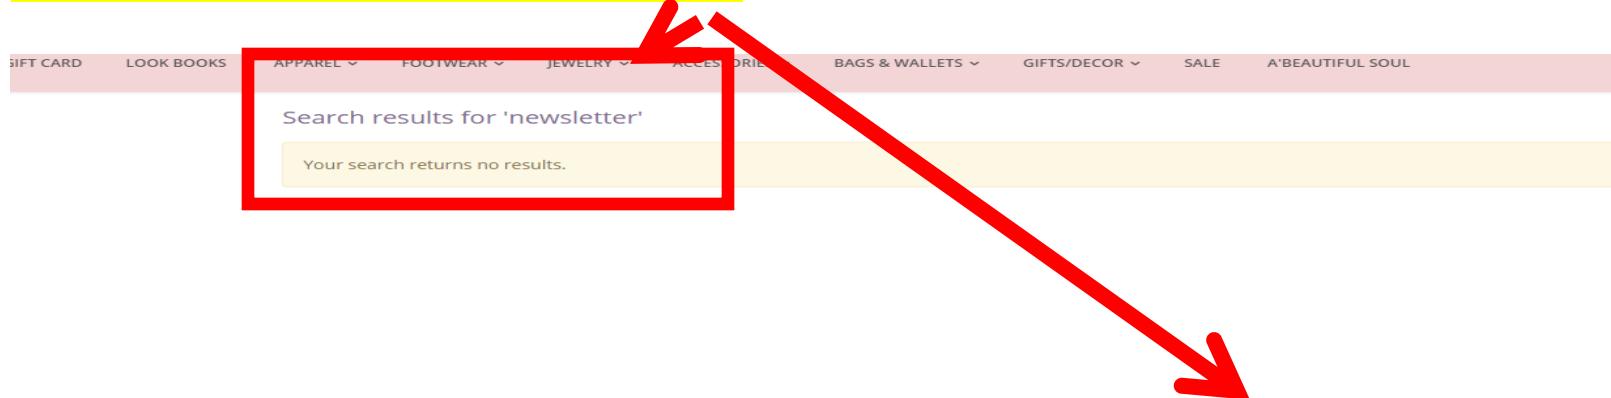

Problem 3:

When you click on Look Book, it takes you to what appears to be a placeholder with no content but if you click on it, it does have content

Problem 4: When I use the websites internal search for the keyword “newsletter”, no newsletter pages are found however as shown below they actually do have a newsletter

The screenshot shows two views of the Altar'd State website. On the left, a search for 'Cardigan' yields a result message: 'There are no products matching the selection.' A red arrow points from this message to the breadcrumb navigation below it, which reads: 'Home > Apparel > Sweaters > Cardigans'. Another red arrow points from the same search message to a yellow box containing text about navigation issues.

On the right, a search for 'Cardigan' in the search bar also results in 'There are no products matching the selection.' A red arrow points from this message to the search results table on the right, which lists various cardigan categories with their counts. The table includes items like 'cardigan' (1303), 'cardigan lace' (237), and 'Cardigan vest' (37).

Problem 5: Using their
Navigation for
Sweaters> Cardigan I got
a "there are no products
matching the
selection" ... but if I use
search I find dozens of
Cardigan sweaters

Google Ads Section -55 points

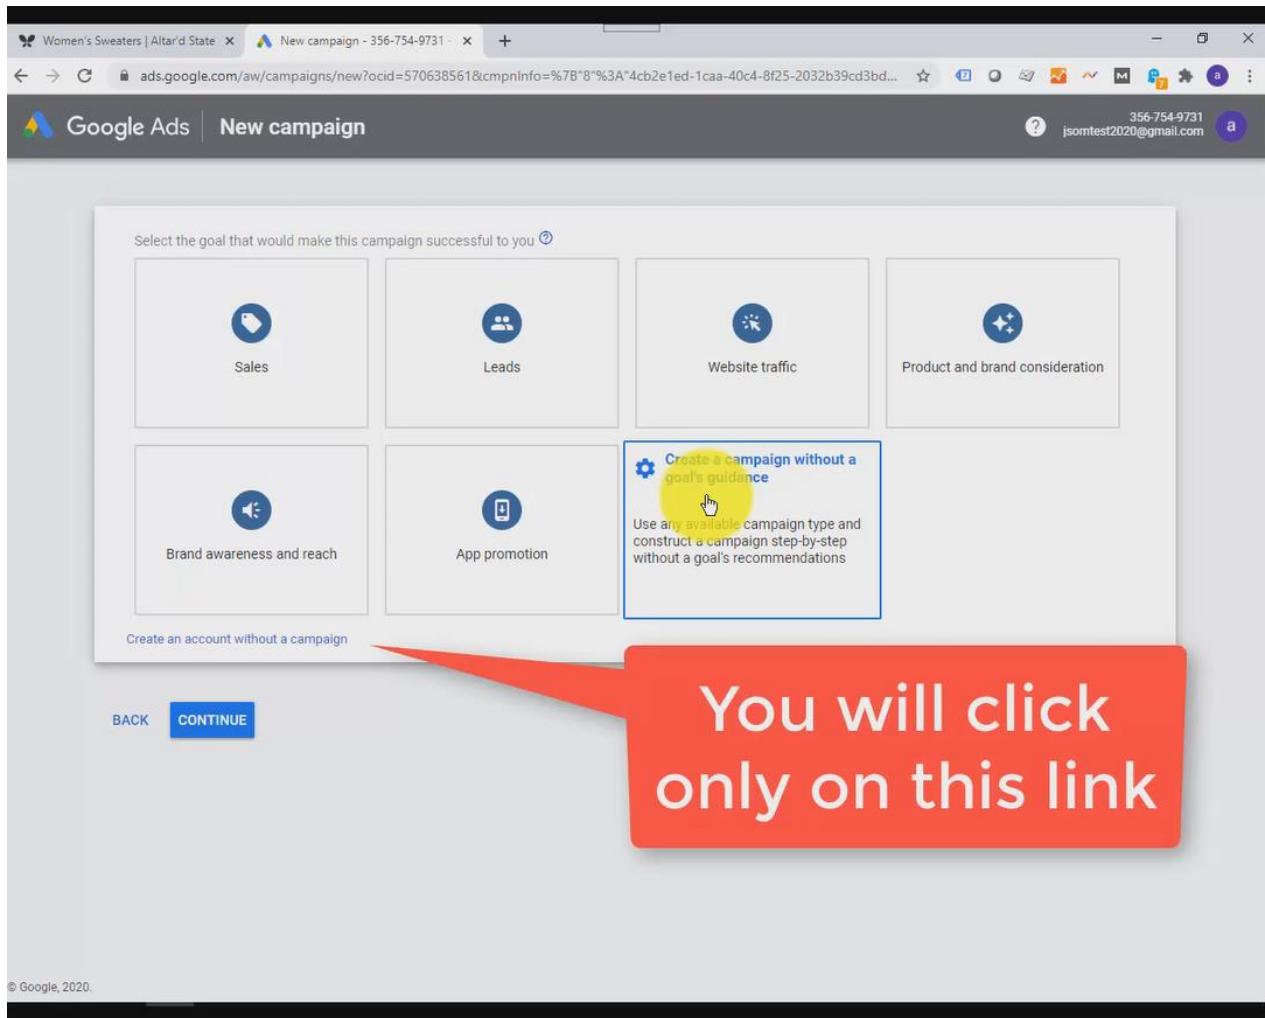

- A. Use Google Chrome as there are known issues with other browsers especially when creating or printing display ads bit if you have issues with Chrome try another browser.
- b) Allow pop-ups in the browser, for Google Chrome, [click here for instructions on how to allow pop-ups.](#)
- c) Have the URL of the company you picked based on criteria we discussed earlier up on one of your tabs-no need to ask any company for permission as you will not go live
- d) Create an account in Google Ads; you may want to create a new Gmail account, one you use for Google Ads certification
- e) Avoiding Billing and the requirement to enter a credit card is tricky; make sure you click on “Experienced with Google Ads,” or you will have to enter billing information. It may become unavoidable with the new interface, in that case, make sure you pause your campaigns and enter very low dollar amounts, if you can enter \$1 per day for a campaign and .10 cents per click, then use that (often minimum bids change). It may look in several different ways

Or it may look like this

You will then be taken to this step. After this we can start, you may occasionally when you login or during your work be taken to billing, switch accounts as shown below

Warning, The Google Ads interface changes constantly however the main thing is the outcome; for example, create the campaign or create the ad. If something looks slightly different do not worry, just create the ad or whatever the task is regardless of how something looks vs my video. If you see a major change, do let me know with a screenshot of what is different. Also, make use of Google Help they have tons of quick guides if you do get stuck.

Once you login to Google Ads do NOT click on the Fix it link

A screenshot of the Google Ads interface. At the top, there's a red callout box with the text "Do NOT click on the Fix it button or you will be forced to enter a credit card". A red arrow points from this box to the "FIX IT" button located in the top right corner of the main navigation bar. The interface shows standard navigation tabs like "All campaigns", "Overview", "CAMPAIGNS" (which is selected), and "AUCTION INSIGHTS". Below the tabs, there's a search bar and a date range selector set to "Last 7 days" (Sep 19 - 25, 2018).

3. DELIVERABLE THREE: Keyword Research

Before doing anything decide which two categories or subcategories you are going to use. Once you know which category and/or subcategories you will use proceed to find 6 keyword groupings in either Google Ads keyword planner. Make sure the first group of keywords uses broad match type for the first Ad Group, the second one should be a combination of Phrase and Exact match as shown in the video. There are many different ways you can create a campaign, Ad Group, ads and add keywords. There needs to be a minimum of six unique keyword “groups” (minimum of 6 keywords) per Ad Group- see HW video. You will do this per video for 2 categories or subcategories

4. DELIVERABLE FOUR –CREATE A SEARCH CAMPAIGN: Choose the settings you think are relevant based on your company, follow the settings requirements in the video, many others are optional. I will review your settings to make sure they make sense. Location is based on where the company sells e.g. if a restaurant it would not make sense to go outside a 60 mile radius, etc. **Create one “search only” campaign**

-
- Location:** use the radius selection, must pick 2 radius perimeters per video
 - Budget** –enter any amount. No need to ask me, this is not going to be an active account so just to be safe use a minimum amount like \$1. In the real world, this usually depends on the business and Lifetime Value to Customer acquisition cost calculation. Do NOT pick for the homework any bidding method other than maximize or manual clicks, in the real world you would pick conversions.
 - Create 2 different types of extensions:** (minimum 2); create two site link extensions and then create any other type of extension (No need for screenshots now, you will do this all at once at the end of the assignment).
-

5. DELIVERABLE FIVE-A: proceed to create 2 adgroups, add keywords to each and then write **one ad for each of the 2 ad groups created**. Make sure the ads follow best practices and are well written—many points will be taken off for poorly written ads or that do not follow best practices (see PPC lecture). Benchmark competitive categories, if necessary, for good ads! Both ads in each Ad Group must use the “keyword insertion” and in other adgroup “location insertion” in the headline

Deliverable FIVE-B: Now, research and add negative keywords; this is shown in the next video with deliverable 6- **add 6** negative keywords at the **Campaign** or ad group level. Total of 6 negative keywords.

6. DELIVERABLE SIX –SMART DISPLAY & VIDEO:

- a) Now go back to the campaign tab section and create this time a “Smart campaign > select subtypes as shown in the video. You can pick any reasonable settings you wish for location, language, bidding, budget, etc. There is no need to create extensions again as you now know how to do this. Follow the video for what to include.
- b) Now go back to the campaign tab section and select the create a new campaign button and this time pick the “Video” campaign type, select the standard settings mentioned in the video, and create a video ad. Make sure you do use impression frequency capping. No one will see this ad. The video you use does NOT have to be made by the company/website you are using--for the HW it can be any related video out there. (Note: In the real world, you would need to be the owner of the video or have permission). Preferably choose “In Stream” but you can do “Video discovery.” For targeting pick 2 audience segments, 3 demographic variables (e.g., age, income), 1 topic, and keywords

Extra Credit-5 points

Create a **Facebook Ad**, for this best to use your own Facebook login, very hard to get past their security process if a fake Facebook business page and account-reason I don't use in homework and very similar to Google Display. Use audience selections as shown in the video. To get credit: see screenshots next section. **Because this is for extra credit you have to do this on your own, this ad platform changes a lot and not always easy to access ads from your personal account.**

1. Show screenshot of a well done ad following best practices
2. Pick at least 5 variables that fit your website category and target audience using audiences not just default one's in ad section-show a screenshot of targeting options

The following is what you will be copying and pasting (or printing if you wish) for PPC deliverables- see “video what to turn in”

Points out of 55 for this section	Points from different deliverables 2-6
8	a. Click on the all-Campaigns tab (should have <u>3 campaigns-Search, Smart & Video</u>)-for each campaign as shown in the video, copy and paste the detail page showing all your campaign settings that I required when doing that campaign-may requires several screenshots. See the examples below for each campaign type-need to see things like localization (search), demographics), and impression caps (in the video) audiences
7	b. Ad groups tab (should have a total of 3 Ad Groups-2 for search and one for video). Smart display appears elsewhere
15	c. Ads tab- make sure I can see all your ads including the video ads. To show your display ad, you will have to go into the setting area of the smart campaign. I must be able to easily read the ads
15	d. Keywords tab- 6 keywords each ad group first ad group broad match type second ad group combination of phrase and exact Shown again in Final Video “What to turn in”
5	e. Negative keywords: make sure all your negative keywords are shown and if campaign vs ad groups-minimum of 6 negative keywords
5	f. Ad extensions created- must have at least two: site links (with at least 2 links) and one other extension can be any type
Extra credit 5 points	g. Facebook 5 variables and ad

Campaign settings

The screenshot shows the Google Ads interface for 'All campaigns'. A banner at the top indicates 'Your account is suspended - Your account has an unpaid balance.' The left sidebar lists campaigns: 'Altard's State Womens Boutique', 'Search-1', and 'Video Custom - 2023-03-09 #2'. The main area displays a table of campaigns with columns for 'Campaign', 'Budget', 'Status', 'Optimization score', 'Campaign type', 'Avg. CPV', 'Impr.', and 'Interac'. Three specific rows are highlighted with red circles and numbers: 1. 'Search-1' (Search campaign, \$1.00/day budget, All ads under review). 2. 'Video Custom - 2023-03-09 #2' (Video campaign, \$1.50/day budget, All ads under review). 3. 'Altard State Womens Boutique' (Smart campaign, \$2.00/day budget, \$60.80/month, Eligible). The bottom of the page contains reporting notes and a copyright notice.

Campaign	Budget	Status	Optimization score	Campaign type	Avg. CPV	Impr.	Interac

Ad groups- should see 3 adgroups

The screenshot shows the Google Ads interface with the 'All campaigns' view selected. The left sidebar is open, showing navigation options like Overview, Recommendations, Insights, Campaigns, Ad groups, Auction insights, Ads & extensions, Videos, Landing pages, Keywords, Audiences, Demographics, Placements, Settings, and More. The 'Ad groups' section is currently active, indicated by a blue selection bar.

A modal window is open in the center, titled 'Ad groups'. It displays a chart showing 'Clicks' over time, with a value of '0' for the date 'Jun 3, 2021'. A note says 'To add a note, click on the chart' with a 'ADD NOTE' button. The chart has a scale from 0 to 2.

The main table lists three ad groups:

	Ad group	Campaign	Status	Default max. CPC	Max. CPV	Ad group type
1	Ad group 1- Broad keywords	Search-1	Eligible	—	—	Standard
2	Ad group 2- Phrase and Exact Keywords	Search-1	Eligible	—	—	Standard
3	Video Custom - 2021-06-07	Video Custom - 2021-06-07	Eligible	—	\$1.00	Skippable in-stream

Red numbers 1, 2, and 3 are overlaid on the first three rows of the table, corresponding to the ad groups listed. A red callout bubble points to the bottom of the table with the text: 'fyi, Display because Smart campaign wont show adgroups'.

Negative keywords

The screenshot shows the Google Ads interface for managing negative keywords. The top navigation bar includes the Google Ads logo and the text "All campaigns". Below the navigation, a message states "Your account cannot show ads - To start running your ads, enter your billing information." The left sidebar contains a navigation menu with items like Overview, Recommendations, Campaigns, Ad groups, Ads & extensions, Videos, Landing pages, and Keywords. Under the Keywords section, "Search Keywords" and "Display/Videos Keywords" are listed, while "Negative Keywords" is selected and highlighted with a blue border. The main content area is titled "Negative Keywords" and features a "ADD FILTER" button. A table lists the current negative keywords:

Negative keyword ↑	Added to
boys	Search-1
camo	Search-1
kimono	Search-1
knit	Search-1
mens	Search-1
used	Search-1

DELIVERABLE EIGHT: (3 points) Using any free SEO tool such as <https://www.seobility.net/en/> or <https://sitechecker.pro/> or [Screaming Frog](#)

- a) Go to their checkup tab and take a screenshot and highlight at least 3 problem areas --make sure it's for your target website. It can be things like the metatag descriptions, page titles, etc. show screenshots. No need for an explanation, in the real world you would want to make specific recommendations by seeing the "How to Fix" Here are some from seositecheckup and Screaming frog, I show examples from different tools, you just pick one and show 3 problems

The image displays three separate sections from an SEO checkup report, each with a red error icon and a 'HOW TO FIX' button.

- Meta Description:** A red error icon indicates a problem. The text states: "The meta description tag is missing from your page. You should include this tag in order to provide a brief description of your page which can be used by search engines. Well-written and inviting meta descriptions may also help click-through rates to your site in search engine results." A red 'HOW TO FIX' button is present.
- Keyword Usage:** An info icon indicates a warning. The text states: "Your most common keywords are not appearing in one or more of the meta-tags above. Your primary keywords should appear in your meta-tags to help identify the topic of your webpage to search engines." Below this, two red error icons list: "Keyword(s) not included in Title tag" and "Keyword(s) not included in Meta-Description tag". A red 'HOW TO FIX' button is present.
- <h1> Headings Status:** A red error icon indicates a problem. The text states: "Your page does not contain any H1 headings. H1 headings help indicate the important topics of your page to search engines. While less important than good meta-titles and descriptions, H1 headings may still help define the topic of your page to search engines." A red 'HOW TO FIX' button is present.

a)

DELIVERABLE 10 -25 points

- A) Using the MOZ toolbar for your target website (you must be logged into MOZ) if you have issues installing or logging into the moz tool bar see <https://moz.com/help/research-tools/mozbar/troubleshooting-mozbar>
- i) Take a screenshot of your website's home page and highlight its Domain Authority (DA), Page Authority (PA), and Spam Score, as shown below. Make sure it is easily visible as the tools black background makes it hard to read with a screenshot unless cropped and made larger.

- ii) Click on the spam score link and take a screenshot of the issues as shown below, highlight top 4-5 “spammy” issues, in the real world you would request those websites remove their links to you and if they don't, submit a link disavowal with [Google](#), Bing, etc. No comments needed. **If the spam link does not work as shown in video login to MOZ go to the left-hand navigation and then click on “Spam score” and take a screenshot, Moz has released a new BETA, and a few things on some websites do not work normally, as long as close to this screenshot its fine**

They need to have these links removed or disallowed as high spam index

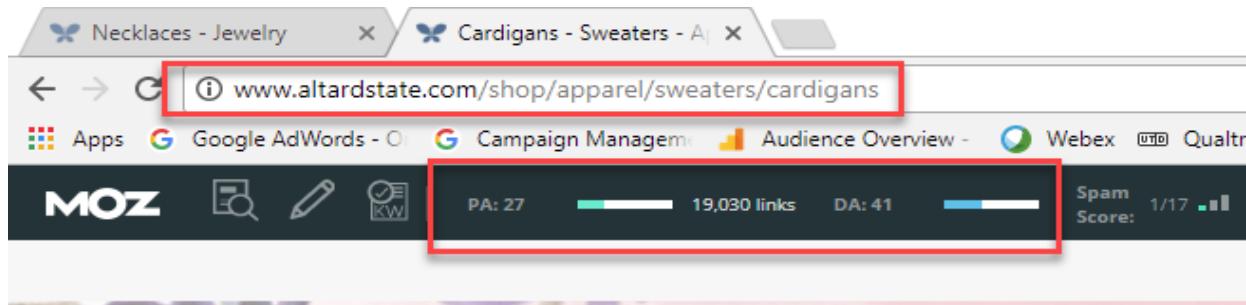

- B. As shown in the video, pick one long tail keyword (must have at least three words). If your keyword is already in the top 3 results then pick another one that is not. I suggest you add a location like Frisco, Dallas etc. relevant to your website and show screenshots of the SERP. Then

add a comment about your recommendation based on the PA and DA of other websites (for page authority for your product, pick a category or subcategory page-not search results--and do not add localization). Need to show screenshots for your page for that category/subcategory and then one for SERP. You must add comments of what you would recommend-your business objective is to try to get up into the top 3 results).

i) Enter what long tail keyword you use: Cardigan sweaters with pockets Frisco

ii) Show a cropped screenshot of the category/subcategory or product detail page with its PA and DA.

iii) There are tools/software that will show the SERP organic rankings for a keyword but these are usually not free, unfortunately, the free tools outside of MOZ, SEM Rush seldom work well. So just enter the long tail search keyword into Google search (e.g., Cardigan sweaters with pockets Frisco) and see if it appears in the first two pages of the search results. Show a screenshot of at least the top 3 results and add comments based on your target websites SERP organic ranking with a recommendation, as shown below.

Images for Cardigan sweaters with pockets frisco

→ More images for Cardigan sweaters with pockets frisco

1. We are not in the top 20 positions For "Cardigan sweaters with pockets Frisco". It will be hard to get into top 3 SEO rankings given that the Domain Authority of the top 3 are all over 80 and my website's DA is only a 41

Recommendation for this keyword: I suggest we focus on doing PPC shopping ads in Google Ads and find other keywords to focus on for SEO purposes

iv) Use the MOZ toolbar (can also use toolbox.seositecheckup.com but it won't show anchor text) as shown in the video, and open "Link explorer" then on left hand menu go to the "Inbound links" tab , leave root domain option and use the filter "Follow" and "NO redirects" then sort by top Page authority in descending order and take a screenshot. Then add comments about what is wrong with their links as mentioned in the video. Is it too many low Page Scores? spammy inbound links? Low number of Followed links? etc. Keep it high level, see examples below

- Another problem this website has is that some inbound links have high spam scores--although some of these websites with higher spam score have a high DA so something to consider if should request they be removed or disavowed. Also not enough variety, too much reliance on toastblog.com, find others. Ratio of domains to links
- External followed Domain to Link ratio is approx. 1:10 should be closer to 1:2
- Anchor text is borderline need more variety (Note for students: FYI an issue if they would all have said Altar'd State [see Moz](#))

- v) Now go to the “Compare Links Profile” tab and pick from your competitors one with a better DA score than your client website, then enter that one next to your website, Show a screenshot, analyze and make comments as to why from a Link only perspective the better ranked website is beating you in DA and PA. (Note if none are better than your website ,find some other competitors that are)

Metrics	www.altardstate.c...	www.anthropolog...
Domain Authority	42	86
Spam Score	1%	1%
Total links	14,463,485	24,360,649
% of total links, external + follow	0%	6%
External, followed links	14,360	1,453,206
Internal, followed links	14,447,553	22,312,947
External, nofollowed links	1,572	319,124
Internal, nofollowed links	0	275,372
Total linking domains	1,345	71,697
Followed linking domains	1,130	67,889

Example: Antropologie has 1.4 million external followed links vs our 14,000 and more important. Ratio of “total linking root domains” to “total external links” is 1:5 vs our 1:10 ratio and should be closer to 1:2, consider with any spammy or low DA or PA linking site asking some to be removed. But Antropologie is worse and not being affected so not major issue.

- vi) Go to the “Discovered and Lost Linking Domains” tab and select “lost” filter then take a screenshot only, no need to comment, these are pages you would want to bring back as explained in the video given some have link juice from other sites and high PA

Display: Discovered Lost

- vii) Link Ideas: Go back to inbound links tab, pick any competitor website doing better than your target website and enter them in the **Inbound links page url area**, use the same filters as used in the previous link analysis task. Then look through and **recommend 3 websites that your website could approach for links if not spammy and have say a DA over 50**, you must add comments as shown below. I have 4 examples as I usually look at multiple competitors (you can look at only one unless not enough ideas), do NOT recommend a website that is a competitor which might be related to your other competitor.

The screenshot shows the Ahrefs Inbound Links tool interface. At the top, there's a search bar with 'root domain' dropdown and a URL input field containing 'https://www.anthropologie.com/'. Below the search bar, it says '2 of 10 queries available until 07/27'. The main section displays four key metrics: Domain Authority (86), Page Authority (69), Linking Domains (71.7k), and Inbound Links (1.8m). There are also 'Total' and 'Followed' counts for Inbound Links. A checkbox for 'Limit results for feeds and proxy sites' is checked. On the right, there's an 'Export CSV' button. The results table has columns for Link Source, Link Type, Text, PA, DA, Linking Domains, Spam Score, and More Info. Several rows are highlighted with red boxes, specifically the first three entries which are from tumblr.com domains.

- a) Many Tumblr pages are helping this competitor such as sunrise, explore how to promote amongst top Tumblr “fashionista” type users
- b) They have content site jezebe.com, see if we AltardState can reach out to them with similar story
- c) Elle has gift ideas under certain dollar amount, submit ideas to them
- d) They got a story in the NY Times for gift ideas, go to that page see how to submit ideas to NYT and other publications
- e) Another competitor, Ann taylor.com has one from lifehacker.com page score 92, suggest we get a story there on how to save money during spring by buying cardigan with 15% discount
- f) Nordstrom.com has a blog linking to them with score 43 called <http://jilliciouscosmetics.blogspot.com/> approach them and get story linking to Altard State

WHAT TO PRINT AND TURN IN

The last video shows you what to turn in. Upload to elearning but make sure you save it as a pdf and upload as ONE document to elearning, do not upload 10 different documents. Use one of the free pdf compression tools to reduce the file size, <https://www.google.com/search?q=pdf+shrinker&ie=utf-8&oe=utf-8&client=firefox-b-1-ab>. Check your pdf! If you upload something that doesn't open it will be marked late

If you do not follow these requirements in 8.5 x 11 size (landscape or portrait or combination is fine) and as one document- you will have to re-upload and have a 10 point deduction for not following instructions plus any late penalties.
